Mit einer Leidenschaft für Architektur und Design entwickelte die Marke Cascando eine besondere Kollektion mit Accessoires für die moderne Wohn- und Projekteinrichtung. Cascando macht überzeugend deutlich, dass solche Accessoires neben ihrer Funktionalität auch eine schöne Form haben können und dadurch einen Beitrag zur Qualität der Wohn- und Arbeitsumgebung leisten. Vanuit een passie voor architectuur en vormgeving ontwikkelde het merk Cascando een bijzondere collectie interieuraccessoires voor hedendaagse woon- en projectinrichting. Dat zulke accessoires behalve functioneel ook fraai van vorm kunnen zijn – en zo bijdragen aan de kwaliteit van de woon- en werkomgeving – toont Cascando overduidelijk aan. Of u nu op zoek bent naar een perfecte afronding van uw wooninterieur, een aangename en functionele inrichting van de werkomgeving of een hoogwaardige en professionele uitstraling van uw bedrijfsentree... met de Cascando-accessoires slaagt u erin uw interieur op passende wijze te completeren.

Passionnée par l'architecture et le design, la marque Cascando a développé une collection particulière d'accessoires pour l'intérieur destinés à l'aménagement de projets et d'habitations contemporaines. Cascando apporte la preuve irréfutable que ces accessoires fonctionnels et esthétiques contribuent à la qualité de l'environnement résidentiel et professionnel. Que vous soyez à la recherche de la touche finale parfaite pour votre intérieur résidentiel, d'un aménagement agréable et fonctionnel pour votre environnement de travail ou d'une image de marque professionnelle et de haute qualité pour l'entrée de votre entreprise, les accessoires Cascando vous permettront de compléter comme il se doit votre intérieur.

Distinctive styling

It should come as no surprise that the Cascando collection has received various design prizes. The accessory lines have their own unique styling. Another feature that the various lines of accessories have in common is their well-thought-out architectural designs, which clearly distinguish Cascando products on the market. The high-quality materials such as aluminium and stainless steel and the use of neutral colours give the products a timeless character and allows them to blend in with any interior.

Ausgezeichnetes design

Nicht umsonst hat die Cascando-Kollektion verschiedene Design-Preise gewonnen; die Accessoirefamilien haben alle ein eigenes charakteristisches Design. Den verschiedenen Accessoirefamilien liegt außerdem das durchdachte architektonische Design zugrunde, mit dem sich Cascando so deutlich auf dem Markt profiliert. Durch die Verwendung von hochwertigen Materialien wie Aluminium und Edelstahl und die Anwendung von neutralen Farben haben die Produkte einen zeitlosen Charakter und passen in jedes Interieur.

Onderscheidende vormgeving

Niet voor niets is de Cascando-collectie bekroond met diverse designprijzen; de accessoirefamilies hebben elk een eigen, karakteristieke vormgeving. Wat de diverse accessoirefamilies evenwel gemeen hebben, is de doordachte architectonische vormgeving waarmee Cascando zich zo duidelijk in de markt profileert. Door het gebruik van duurzame materialen zoals aluminium en roestvast staal en de toepassing van neutrale kleuren krijgen de producten een tijdloos karakter en passen zij in elk interieur.

Des formes distinctives

Ce n'est pas pour rien que la collection Cascando a été couronnée par différents prix en matière de design; les familles d'accessoires ont toutes leurs propres lignes caractéristiques. Autre point commun entre les différentes familles d'accessoires: les formes architectoniques mûrement réfléchies, avec lesquelles Cascando se profile de manière non équivoque sur le marché. Grâce à l'utilisation de matériaux de très haute qualité tel que l'aluminium et l'acier inoxydable et à le choix de couleurs neutres, les produits développent un caractère intemporel et s'adaptent à chaque intérieur.

Boxo1 is a flexible storage system which can be mounted to the wall or placed on the floor. Boxo1 stands out from other systems due to its thin-wall steel structure, which produces a sophisticated, architectonic effect. The series comes in 10 different models. The wall versions are available with open fronts or open sides.

The stackable models come with magnetic bases, making them easy to stack without the need for tools. Horizontal stability can be achieved through the use of intermediate magnets. Boxo1 is powder-coated in aluminium RAL9006, which looks good in any interior.
