Category Kids chair - stackable, 6 units

Simple Works

When we launched the children's version of our Rondo chair, we were the first Danish design company to present design classics made for children. Rondo Kids is available in different heights adjusted to the age of the child. Rondo Kids is especially popular in schools, libraries, kindergartens and the like. As with the adult Rondo, the Kids' chair comes in large array of colors. All the chairs are produced with consideration to the user and the environment thus are all wood used sourced from sustainable suppliers, and for the frame we only use environmentally friendly chrome (chrome-III) free from carcinogens and good to nature.

Seat shell

9 layers/1.2 mm
PEFC-certified veneer

Frame

16 mm seamless steel tube

Frame standard

Chrome

Frame lacquered
