Schwenkbar. Die Nackenstütze kann 35 Grad nach vorne geneigt werden.

Rahmen

Metallband, RAL 9007 Struktur pulver-beschichtet. Basis ist eine Sperrholzplatte die mit einem Gelenk verbunden ist mit dem Stahlrahmen.

Schaum

Basis aus HR-Schaum mit 300 g dacron.

Polsterung

Abnehmbarer Bezug aus Stoff.

AXEL TABLEAU

Das Tableau besteht aus zwei Metall-platten 2 mm dick, die in Leder gepolstert sind.

KUSSENS

De rugkussens van ons model AXEL / AXEL XL hebben een losse vulling. Dit is een vulling van verschillende losse, veerkrachtige en duurzame materialen. De kussens vormen zich gemakkelijk naar uw lichaam en geven daardoor een groot comfort en een natuurlijke nonchalance. Om de vormgeving van uw bank te bewaren is het van belang dat de bank iedere dag na gebruik wordt opgeklopt, zodat de vulling weer luchtig wordt en de vorm wordt hersteld, vergelijkbaar met het hoofdkussen van uw bed. Dit dagelijkse onderhoud komt de levensduur en het comfort van de kussens ten goede en vermijdt verkleving van de losse vulling.

VILTGLIDERS ONDER SLEDE

De glijders onder de sledes worden gemaakt van antislip materialen, zoals rubber of kunststof. In deze materialen zitten stoffen, die onder druk vlekken kunnen veroorzaken op diverse vloeren (kunststof, gietvloeren, pvc, tapijten, betonvloeren, houten vloeren, etc.). Ter voorkoming van een reactie op de vloer, adviseren wij gebruik te maken van bijgeleverde viltglijders.

CUSHIONS

The back cushions of our model AXEL / AXEL XL have a loose fill. This is a filling consisting of various resilient and durable materials. The Axel / Axel XL cushions easily shape to your body and give great comfort and nonchalance. To preserve the design of your couch it is important to fluff it up every day after use to bring back the airy quality of the stuffing and to recover its shape, just as you would do with the pillows on your bed. The life span and comfort of the pillows greatly benefit from this daily maintenance and you prevent the loose stuffing from clumping together.

FELT GLIDES UNDER SLED BASE

The glides under the sled bases are made from anti-slip materials such as rubber or plastic. These materials contain substances which can cause stains under pressure on various floors (artificial floors, cast floors, pvc, carpet, concrete floors, hardwood floors, etc.). To prevent a reaction on the floor we recommend using the included felt glides.

KISSEN

Die Rückenkissen des Modells AXEL / AXEL XL haben eine lose Füllung, die aus elastischen, langlebigen Materialien bestehen. Die Kissen schmiegen sich dem Körper an, sind dadurch komfortabel und geben dem Sofa eine "lässige" Ausstrahlung. Damit das Sofa seine Form behält, ist es wichtig, dass es jeden Tag nach Gebrauch abgeklopft wird, damit die Füllung wieder luftig und die Form wiederhergestellt wird (vergleichbar mit einem Kopfkissen). Diese tägliche Pflege kommt der Lebensdauer und dem Komfort der Kissen zugute und vermeidet ein Verkleben der losen Füllung.

FILZGLEITER UNTER KUFENGESTELL

Die Gleiter unter die Kufengestelle sind aus rutschfestem Material wie Gummi oder Kunststoff gefertigt. Diese Materialien enthalten Substanzen, die unter Druck auf verschiedenen Böden Flecken verursachen können (Kunststoff, Gussböden, PVC, Teppichböden, Betonböden, Holzböden usw.). Um eine Reaktion auf dem Boden zu vermeiden, empfehlen wir die Verwendung von mitgelieferten Filzgleitern.
